DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35

U.S.C.121:

I. Claims 10-13, and 34-38, drawn to an integrated circuit device, classified in class 257, subclass 730.

II. Claims 27-33 and 39-41, drawn to a method of making an integrated circuit, classified in class 438, subclass 123.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case unpatentability of the Group I invention would not necessarily imply unpatentability of the Group II invention, since the Group I invention could be made by directly attaching the metallic films, connecting parts and mododed resin to said chips without the use of a lead frame (Claim 39).

3. Because these inventions are distinct for the reason given above and acquired a separate status in the art as shown by their different have classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17 (i).

6. Any inquiry concerning this communication or early communications from the examiner should be directed to Thanh V. Tran whose telephone number is (703) 306-0208. The examiner can normal be reached on 8:00 Am to 5: 50 Pm.
